Note E.—Upon this Schedule should be CAREFULLY RETURNED.

1st. Every death which has occurred in this enumeration district during the Census year, whether the deceased was or was not, at death, a member of any family which resided June 1, 1880, in the district.

2d. Every death which has occurred outside of this enumeration district during the Census year, the deceased being at death a member of a family which resided June 1, 1880, in the enumeration district.

The enumerator should make these entries upon this Schedule with great care, seeking every source of information. When a positive statement is impossible, as when an age can only be estimated, or a birth-place must be conjectured, the entry may be inclosed in parentheses, thus: Age (25), meaning that the best estimate of the age that can be given is 25 years.

Of the deaths reported above, the following occurred in this enumeration district, but the families to which the deceased belonged resided June 1, 1880, out of the enumeration district, as follows:

Number of the line upon which the case is reported above.	Place where the family of the deceased resided June 1, 1880.	Town.	County.	State.

Of the deaths reported above, the following occurred out of this enumeration district, though the families to which the deceased belonged resided June 1, 1880, in this enumeration district, as follows:

Number of the line upon which the case is reported above.	Place where the death occurred.	Town.	County.	State.

REMARKS.
