

Miner School has active memberships in all of the three groups just named:

P.T.A. meets, usually, the fourth Thursday of each month at the school in the afternoon. However, at least two night meetings during the school year enables fathers to participate in this program. Membership fees are set at 25¢ per person per year.

Study Group meets at the school the third Thursday afternoon of each month. There is no regular dues (since this is not primarily a money-making organization) and anyone who is a member of P.T.A. automatically is a member of Study Group by coming to the meetings and registering.

Pre-School Group meets the second Tuesday of each month in the evening. Members of the group act as hostesses and meetings are held in the homes of the members. There is an annual dues of 25¢ and anyone having children that will become a part of the school program is invited to join. Membership may then be retained as long as the person is interested and continues to pay dues.

#### SCOUTING:

In the interests of the boys and girls there is a program of scouting offered at Miner. Because parents need to support these scouting activities to make them successful and meet the requirements set by the Scout Offices they are sponsored by one of the above mentioned groups. Our Scout program consists of:

Cub Scouts -- Pre-school sponsored, open to boys whose parents are willing to participate in the complete program of the Cubs. Our Pack Number is 3011 and consists of 5 dens. The dens meet weekly with their den mother and the entire pack (and one or both parents of each boy) meets once a month at the school.

Boy Scouts -- open to Miner boys only is co-sponsored by the P.T.A. It is Troop Number 11 and consists of 3 patrols. The troop meets at the school once a week, and is open to boys 11 years and older. It is not necessary that a boy completes the Cub Scout program in order to be a Boy Scout.

Brownie Troops are P.T.A. sponsored and is the Scout program of the younger girls. We have two troops opened to girls who are 7, 8, and 9 years of age. When Brownies are ten they "fly up" to the regular Girl Scout program.

Girl Scouts -- we have two troops -- are P.T.A. sponsored and is open to girls ten years of age and over. Usually a girl can participate in the Girl Scout program at Miner only a year (or a year and a half) because we are only a six grade school. However, because most of our pupils transfer to Hoagland for the 7th and 8th grades, the troop ordinarily remains intact and carries on its work there under the same leaders.
