

- Clifford Dygert, - a local osteopath, is another alumnus of Miner and his sister Cecil an accomplished pianist, taught piano for many years?
- that four of our "charter" members -- people attending when it was a four room school -- are still living and hope to help us observe our 66th year? They are Nettie "Suter" Teeters; Clara "Wright" Schwanz; Nora "Godfrey" Tracey and Leon Wheeler?
- Kenneth Dutton, an optometrist ad Kokomo is a brother of Carl Dutton, previously mentioned and brother-in-law of Clarence Biedenweg, physical education supervisor in the Fort Wayne Schools?
- that Mrs. Biedenweg, - the former Josephine Dutton, went to Miner as a little girl and now teaches at the Merle Abbett School?
- that the other member of that family, Lucille Dutton, is well remembered by her former teachers and classmates as a brilliant youngster. This apparently is a family trait.
- Marjorie Bell, art instructor at North Side High School showed promising ability even as a child when Miss Zook had her in Miner? Incidentally, Miss Bell replaced Miss Zook retired a year ago?
- Donald Krewson, who designed and printed our covers for this history, and his wife Elizabeth (Lock) Krewson both delight in reminiscing about school days at Miner?
- Earl Buskirk, now a Methodist minister (last known address was in California) roamed these halls contemporarily with the author?
- John Weikel of the Weikel Construction Company, who now has a son in the school, and Daniel Weikel, Estelle and Eunice, sisters, all are remembered as Miner pupils?
- Mrs. Robert Leiter, the former Marian Menze, an accomplished violinist and former Miner student is a member of the Philharmonic Orchestra here in Fort Wayne?
- there are many many more alumni who could and should be mentioned here but either I didn't hear about them and their associations with Miner, or the information came too late for verification.
