

At the close of this school year after all expenses have been met and the books are closed forever with a final audit, the funds remaining in the treasury will be distributed in the following manner. This is the official resolution adopted by the PTA membership which feels that in it is incorporated the most fair distribution of the balance on hand.

The Miner Parent Teacher Executive Committee, realizing the importance of a fair and equitable distribution of the unencumbered funds which the Miner Parent Teacher Association might have at the time of Miner School's abandonment; feeling that the money was raised through the joint efforts of all parents, past and present, for the benefit and welfare of all children of the school, does make the following recommendation.

That all monies remaining in the Miner P.T.A. treasury, after all obligations are met, be distributed as follows:

\$200.00 (1 scholarship) be given to the State P.T.A. Scholarship Fund to be used for aiding future teachers in furthering their education.

That the balance of the money be distributed on a percentage basis (1 pupil - 1 share) in this manner:

Since it is customary for feeder schools to send a contribution to a new P.T.A. which is being established in a new school (The size of this contribution usually based upon the number of pupils being sent the new school) we wish to make up for an oversight in courtesy which inadvertently occurred when we forgot to send a gift to the new Portage Junior High School last year. We sent seven pupils there last year. So they should have \$\_\_\_\_\_ which represents seven shares.

That the New Fairfield Junior High School Parent Teacher Association shall be given \$\_\_\_\_\_ which represents the amount equivalent to 40 pupil shares. (This is the number of pupils which were enrolled in the new Fairfield Junior High from Miner in the fall of 1962.)

That Portage Junior High School Parent Teacher Association be given \$\_\_\_\_\_ which represents the 5 pupil shares from the pupils signed up from Miner School in the fall of 1962.

That Washington (city) School Parent Teacher Association be given \$\_\_\_\_\_ for the 38 former Miner pupils enrolled there in the fall of 1962.

That the South Wayne Parent Teacher Association be sent \$\_\_\_\_\_ to represent the 92 former Miner pupils received in the fall of 1962.
